

Application Serial No. 10/802,439
Reply to Office Action dated April 16, 2007

Amendments to the Drawings

The attached three sheets of drawings include newly added Figures 7, 8, and 9. These figures are added as suggested by the Examiner.

Attachment: Three New Drawing Sheets

REMARKS/ARGUMENTS

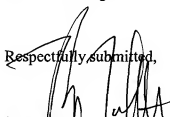

Applicant has received and carefully reviewed the Office Action mailed April 16, 2007. Claims 1-34 remain pending, with claims 29-32 withdrawn as being directed to a non-elected invention. Reconsideration and reexamination are respectfully requested.

Claims 1-34 have been restricted into three groups. Applicants hereby elect group I without traverse, which corresponds to claims 1-28, 33 and 34. Applicants reserve the right to pursue the subject matter of the non-elected claims in a divisional application, or request rejoinder of the unelected claims upon allowance of a corresponding product claim.

The Examiner objected to the drawings for not showing every feature of the invention specified in the claims. The Examiner asserts that the governor that uses magnetic forces, a transmission that changes a gearing ratio and a controller that applies electrical signals are not shown in the drawings. While Applicant respectfully disagrees with this objection, new Figures 7-9 have been added by this Amendment, showing the above features. The drawings are directed to subject matter found in the specification and claims as originally filed and thus do not add new matter. The specification has been amended to provide a brief description of the new drawings. The added language is taken from, for example, the original claims and thus adds no new matter.

Reconsideration and reexamination are respectfully requested. It is submitted that, in light of the above remarks, all pending claims are now in condition for allowance. If a telephone interview would be of assistance, please contact the undersigned attorney at 612-359-9348.

Respectfully submitted,

Brian N. Tufte, Reg. No. 38,638
